Mobile Paint Mfg. Co., Inc.

SAFETY DATA SHEET

OSHA HCS (29 CFR 1910-1200)

SECTION 1 - PRODUCT AND MANUFACTURER IDENTIFICATION

Product Name: MOSPRAYCO - PRIMER GRAY Product Code: 131-9A

Mobile Paint Mfg. Co., Inc. P.O. Box 717 4775 Hamilton Blvd. Theodore, AL 36582

Emergency Phone: Chemtel, Inc 1-800-255-3924 +1-813-248-0585 (Chemtel 24 Hour Emergency Number)

Information Phone: 251-443-6110 FAX: 251-408-0410

Product Use: Paint Not recommended for: Contact Manufacturer

SECTION 2 - HAZARD DATA

GHS Ratings:

	Flammable aerosol	1	Flammable aerosol class 1	
	Skin corrosive	2	Reversible adverse effects in dermal tissue, Draize score: >=	
			2.3 < 4.0 or persistent inflammation	
	Carcinogen	2	Limited evidence of human or animal carcinogenicity	
	Aspiration hazard	1	Aspiration Toxicity Category 1: Known (regarded)- human	
			evidence - hydrocarbons with kinematic viscosity ? 20.5	
			mm2/s at 40° C.	
<u>GHS Ha</u>	azards			
	H222	Extremely flammable	material	
	H304	•	wed and enters airways	
	H315	Causes skin irritation	-	
	H351	Suspected of causing		
	recautions			
	recautions			
	P201	Obtain special instruc	ctions before use	
	P202	Do not handle until a	Il safety precautions have been read and understood	
	P210	Keep away from hea	t/sparks/open flames/hot surfaces – No smoking	
	P211	Do not spray on an o	pen flame or other igntion source	
	P251	Pressurized containe	er – Do not pierce or burn, even after use	
	P264	Wash hands and skir	n thoroughly after handling	
	P280	Wear protective glove	es/protective clothing/eye protection/face protection	
	P281	Use personal protect	ive equipment as required	
	P321	Specific treatment (see information on this label)		
	P331	Do NOT induce vomi	ting	
	P362	Take off contaminate	d clothing and wash before reuse	
	P301+P310		mediately call a POISON CENTER or doctor/physician	
	P302+P352	IF ON SKIN: Wash w	vith soap and water	
	P308+P313		rned: Get medical advice/attention	
	P332+P313		s: Get medical advice/attention

SECTION 3 - COMPOSITION / HAZARDOUS INGREDIENTS				
Chemical Name	CAS number	Weight Concentration %		
ethyl benzene	100-41-4	0.28%		
n-butane	106-97-8	10.00% - 20.00%		
n-butyl acetate	123-86-4	5.00% - 10.00%		
zinc oxide	1314-13-2	1.00% - 5.00%		
xylene, mixed isomers	1330-20-7	2.70%		
titanium dioxide	13463-67-7	5.00% - 10.00%		
magnesium silicate	14807-96-6	1.00% - 5.00%		
aliphatic petroleum solvent naphtha	64742-88-7	5.00% - 10.00%		
aliphatic naphtha (VM&P)	64742-89-8	5.00% - 10.00%		
acetone	67-64-1	10.00% - 20.00%		
propane	74-98-6	10.00% - 20.00%		
mineral spirits	8052-41-3	1.00% - 5.00%		

SECTION 4 - FIRST AID MEASURES

Inhalation: Remove to fresh air. Administer oxygen if breathing is difficult. Restore breathing if necessary and call a physian immediately. Treat symptomatically.

Eyes: Remove contact lenses if worn. Flush immediately with large amounts of water for at least 15 minutes. If symptoms persist, consult with a doctor for medical treatment.

Skin: Wash affected areas with soap and water. Remove and launder contaminated clothing. Consult a doctor if skin irritation continues.

Ingestion: Do not induce vomiting. Rinse out mouth and drink plenty of water to dilute. Never give anything by mouth to an unconcious person. Get medical help immediately.

Most important symptoms and effects, both acute and delayed

Symptoms: No information available.

Indication of any immediate medical attention and special treatment needed

Note to physicians: Treat symptomatically

SECTION 5 - FIRE FIGHTING MEASURES

Flash Point: < -18 C (<0 F) LEL: 1.00

UEL: 13.00

Extinguishing media

Suitable extinguishing agents:

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. CO2,

extinguishing powder or water spray may be effective.

For safety reasons unsuitable extinguishing agents: CAUTION! Use of water spray may be inefficient.

Unusual Fire and Explosion Hazards

Extremely flammable aerosol. If in a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. Gas may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back, causing fire or explosion. Bursting aerosol containers may be propelled from a fire at high speed. Runoff to sewer may create fire or explosion hazard.

Full protective equipment including self-contained breathing apparatus should be used. Water spray may be ineffective. If water is used, fog nozzles are preferable. Water may be used to cool closed containers.

Special hazards arising from the substance or mixture

Formation of toxic gases is possible during heating or in case of fire.

Advice for firefighters

During emergency conditions overexposure to decomposition products may cause a health hazard. Symptoms may not be immediately apparent. Obtain medical attention. Keep containers tightly closed. Isolate from heat, sparks, and open flame.

Protective equipment:

Full protective equipment including self-contained breathing apparatus should be used.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Use respiratory protective device against the effects of fumes/dust/aerosol. Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation. Keep away from ignition sources. Protect from heat. **Environmental precautions:** Do not allow to enter sewers/ surface or ground water. See Section 12 for additional ecological information.

Methods and material for containment and cleaning up:

Absorb with non-combustible liquid-binding material (sand, diatomite, acid binders, universal binders). Dispose contaminated material as waste according to item 13. Do not flush with water or aqueous cleansing agents. Send for recovery or disposal in suitable receptacles.

Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

SECTION 7 - HANDLING AND STORAGE

Handling Precautions:

Precautions for safe handling

Prevent formation of fine mist and vapor buildup during and after use. Avoid splashes or spray in enclosed areas. Use only in well ventilated areas. Do not get in eyes. Avoid skin contact. Can cause allergic respiratory reaction. Can cause allergic skin reaction. Prevent prolonged or repeated breathing of vapors or spray mist. Avoid breathing of sanding dust. Wash contaminated clothing thoroughly. Wash skin thoroughly with soap and water after handling. Close container after each use. Do not transfer this product to unlabeled containers. Do not handle until the manufacturer's safety precautions have been read and understood. Keep out of reach of children.

Information about protection against explosions and fires:

Keep ignition sources away. Do not smoke. Protect against electrostatic discharges.

Storage Requirements:

Pressurized container: Protect from direct sunlight and do not expose to temperatures above 120 F. Store large quantities only in buildings designed to comply with OSHA 1910.106.

Keep closures tight and container upright to prevent leakage. Do not store or use near heat, sparks or flame. Empty containers may contain product residue or residual pressure and can be hazardous.

Regulatory Requirements:

Consult NFPA Code. Use approved bonding and grounding procedures.

SECTION 8 - EXPOSURE CONTROLS / PERSONAL PROTECTION					
Chemical Name / CAS No.	OSHA Exposure Limits	ACGIH Exposure Limits	Other Exposure Limits		

ethyl benzene 100-41-4	TLV-TWA 100ppm PEL-TWA 100ppm STEL 125 ppm	TWA 20ppm	NIOSH REL TWA 100ppm NIOSH REL ST 125ppm

Engineering Controls:

Appropriate engineering controls include ventilations systems, eyewash stations and emergency showers.

Ventilation:

All application areas should be ventilated in accordance to OSHA regulation 29 CFR 1910.94, 1910.107, 1910.108. Remove decomposition products formed during welding or flame cutting on surface coated with this product. If baking, vent fumes.

Work / Hygenic Practices:

Wash skin thoroughly before breaks and meals and at the end of work period .

Respiratory Protection:

Use a NIOSH-approved respirator to prevent overexposure, when exposure exceeds occupational exposure limits (Section II). Use either an atmosphere-supplying respirator or an air-purifying respirator for organic vapors in compliance with 29 CFR 1910.134, with provision for mist removal if conditions so indicate.

Eye Protection:

Safety eyewear including splashguards or side shields recommended.

Protective Gloves:

Recommended. The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material should be based on consideration of the penetration times, rates of diffusion and the degradation.

Other Protective Clothing or Equipment:

Use protective outerwear and prevent prolonged skin contact with contaminated clothing.

Contaminated Equipment:

Thoroughly clean all contaminated clothing and personal protection equipment.

SECTION 9 - PHYSICAL / CHEMICAL CHARACTERISTICS

Information on basic physical and chemical properties

Appearance: Liquid Vapor Pressure: 81.1 mmHg @ 25C Vapor Density: 2.3 Specific Gravity: 0.79 Freezing point: No information available Boiling range: -32°C Evaporation rate: slower than ether Partition coefficient (n- no data octanol/water): Viscosity: No information available VOC - water/exempt (Ib/gal) 4.72 VOC emitted (Ib/gal) 3.85

Odor: Typical solvent paint odor Odor threshold: No information available pH: No information available Melting point: No information available Solubility: No information available Flash point: 0 F,-18 C Flammability: No information available Decomposition temperature: No information available VOC - water/exempt (g/L) 567 VOC emitted (g/L) 463

SECTION 10 - STABILITY AND REACTIVITY

Reactivity - No data available

Chemical stability - Stable under recommended storage conditions. STABLE

Possibility of Hazardous Reactions - None under normal conditions of use.

Conditions to Avoid - Heat, sparks, open flame, static electricity, sources of ignition, elevated temperatures .

Incompatible Materials - No data available

Incompatibility of Individual Components:

No information available

Hazardous decomposition products - Under normal conditions of storage and use, hazardous decomposition

products should not be produced.

Information for Individual Components:

No information available Hazardous polymerization will not occur

Hazardous polymerization will not occur.					
	SECTION 11 - TOXICOLOGICAL INFORMATION				
Mixture Toxicity

	Inhalation LC50: 76 mg/L (rat)				
8052-41-3	mineral spirits				
	Oral LD50: 5,000 mg/kg (rat) Dermal LD50: 2,000 mg/kg (rabbit)				

CHRONIC HEALTH HAZARDS:

Reports have associated repeated and prolonged overexposure to solvents with permanent brain and nervous system damage.

Routes of Entry:

Routes of Entry:						
Inhalation Skin Co		ontact	Eye Contact	Ingestion		
Target Organs:						
Eyes	Lungs	Central Ne	rvous System	Skin		
Effects of Overe	xposure					
Eye contact:		•	t can cause severe n some individuals.	irritation, redness, tea	ring, blurred vision. May be a	
Skin contact:		Skin contact can cause moderate iritation, defatting, dermatitis. May be a sensitizer in some individuals.				
Inhalation:		nervous sy	stem depression cha		of the respiratory tract, or acute he, dizziness, staggering gait, iation.	
Ingestion:		Ingestion can cause gastrointestinal irritation, nausea, vomiting and diarrhea. Aspiration into the lungs during ingestion or vomiting may cause mild to severe pulmonary injury and possibly even death.				
Sensitization:		No data av	ailable.			
Mutagenicity:		No data av	ailable.			
Reproductive Toxicity:		No data available.				
Teratogenicity	<i>ı</i> :	No data av	ailable.			
Specific Targe Organ Toxicity Single Expose	y -	No data available.				
Specific Targe Organ Toxicity Repeated Exp	y -	No data av	ailable.			

Carcinogenicity:

For Mixture - No information available

For Components - The following chemicals comprise 0.1% or more of this mixture and are listed and/or classified as carcinogens or potential carcinogens by NTP, IARC, OSHA (mandatory listing), or ACGIH (optional listing). **Note:** Reference to **ethyl benzene** refers to IARC classification of ethyl benzene as possibly carcinogenic to humans (Group 2B) based on sufficient evidence in experimental animals but there is inadequate evidence that ethyl benzene causes cancer in humans.

CAS Number	Description	<u>% Weight</u>	Carcinogen Rating
100-41-4	ethyl benzene	0.28	ethyl benzene: IARC: Group 2B -
			Possibly carcinogenic to humans
			ACGIH: Confirmed animal
			carcinogen with unknown relevance
			to humans
			OSHA: Not identified as a
			carcinogen or possible carcinogen
			NTP: Not identified as a known or
			anticipated carcinogen

SECTION 12 - ECOLOGICAL INFORMATION

Persistence and degradability - No information available. Bioaccumulative potential - No information available. Mobility in soil - No information available. Ecotoxical effects - No information available. Other adverse effects - No information available.

Additional ecological information:

General notes:

Do not allow product to reach ground water, water course or sewage system. Danger to drinking water if even small guantities leak into the ground.

Results of PBT and vPvB assessment

PBT: Not applicable. **vPvB:** Not applicable.

Component Ecotoxicity n-butyl acetate	LC50 (Pimephales promelas (fathead minnow)):18mg/l @ 96 h; EC50 (Daphnia magna (water flea)):44 mg/l @ 48 h; EC50 (Desmodesmus subspicatus (green algae)):674.7 mg/l @ 72 h; NOEC (Daphnia magna (water flea)): 23 mg/l @ 21d; EC 50 (Tetrahymena pyriformis (Ciliate)): 356 mg/l @ 40h

SECTION 13 - DISPOSAL CONSIDERATIONS			

Waste disposal methods:

Waste from this product may be hazardous as defined under the Resource Conservation and Recovery Act (RCRA) 40 CFR 261. Residual materials should be treated as hazardous unless proven to be otherwise.

Notice to user:

The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes.

Empty Container Warning:

Emptied containers may contain product residue and may still be under pressure. Follow label warnings even after container is emptied. Residual vapors may explode on ignition. Do not reuse container. Do not puncture or incinerate container.

SECTION 14 - TRANSPORT INFORMATION

Shipping descriptions are provided for informational purposes and do not consider container sizes. The presence of a shipping description for a particular mode of transportation does not indicate that the product is packaged suitably for that mode of transport. All packaging must be reviewed for suitability prior to shipment and compliance with applicable regulations is the sole responsibility of the person offering the product for transport.

<u>Agency</u>	Proper Shipping Name	<u>UN Number</u>	Packing Group	Hazard Class
DOT	AEROSOL	1950		2.1
	Special provision for limited quantity			

SECTION 15 - REGULATORY INFORMATION

California Proposition 65

This product contains the following chemicals which are listed by the State of California as carcinogenic or a reproductive toxin:

100-41-4 ethyl benzene 13463-67-7 titanium dioxide

CERCLA

This material, as supplied, contains the following chemicals regulated as a hazardous substance under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) - 40 CFR 302

100-41-4 ethyl benzene 1330-20-7 xylene, mixed isomers 123-86-4 n-butyl acetate 67-64-1 acetone

Hazardous Air Pollutants (HAPs) Content

Hazardous Air Pollutants subject to the provisions of the Clean Air Act, Title I Section 112 'National Emission Standards for Hazardous Air Pollutants'

100-41-4 ethyl benzene 0.3 % 1330-20-7 xylene, mixed isomers 2.7 %

Massachusetts RTK:

ethyl benzene 100-41-4 xylene, mixed isomers 1330-20-7 n-butyl acetate 123-86-4 acetone 67-64-1

New Jersey RTK:

ethyl benzene 100-41-4 xylene, mixed isomers 1330-20-7 mineral spirits 8052-41-3 n-butyl acetate 123-86-4 aliphatic naphtha (VM&P) 64742-89-8 aliphatic petroleum solvent naphtha 64742-88-7 acetone 67-64-1

Pennsylvania RTK:

ethyl benzene 100-41-4 xylene, mixed isomers 1330-20-7 mineral spirits 8052-41-3 titanium dioxide 13463-67-7 n-butyl acetate 123-86-4 aliphatic naphtha (VM&P) 64742-89-8 acetone 67-64-1

Rhode Island Hazardous Substance List:

ethyl benzene 100-41-4

SARA 313

This product contains a chemical or chemicals which are subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA 313).

100-41-4 ethyl benzene 0.3 % 1330-20-7 xylene, mixed isomers 2.7 %

TSCA

All chemicals in this product are listed, or are exempt from listing, on the TSCA inventory unless they are listed here:
